

# SUMMIT TOOLS

EQUIPMENT FOR TRADIES AT THE TOP OF THEIR GAME

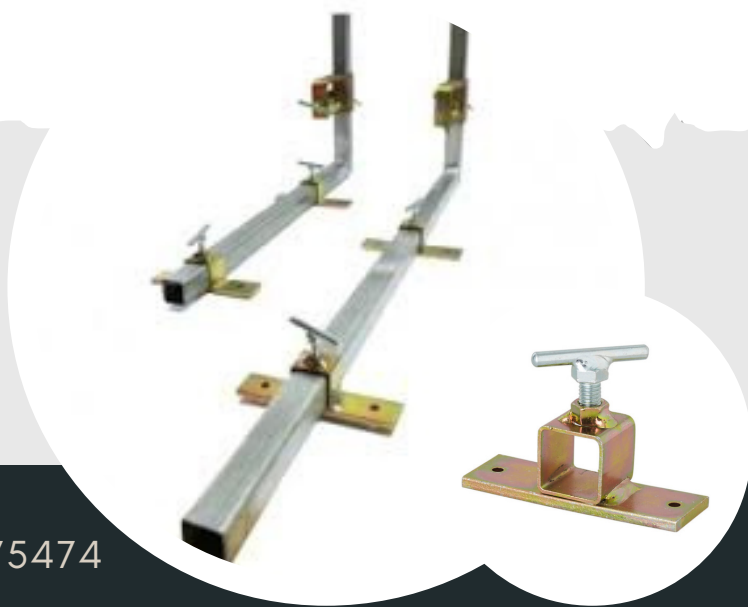

## INTRODUCING WEEPA

- 70mm Weepa forms a weep hole with a PVC grate designed to create a perfect, functional and attractive weep hole.
- Weepa is a special size for use in rendered lightweight panel or kiwi brick.
- As per the master brick layers association, weep holes wider than 13mm require vermin proofing.

## BT Profile Brackets

A large selection of clamps to suit both the 25mm and 19mm brackets are in stock.
